About the BUILD program

The Building Understanding, Independence, and Life Development (BUILD) program is designed for students in grades 1 to 3 who would benefit from additional support in academic learning and social-emotional development. The program is available to students within Grasslands School Division, with placement determined collaboratively through consultation with parents/guardians, school staff, and division staff.

About the BUILD assessment system

Some of this information (your child's first name and learning progress) is entered into an online assessment system that uses artificial intelligence to generate progress summaries, report content, and draft lesson plans. Staff review this content before it is used.

The information in this system is stored and processed outside Canada, in the United Kingdom, by the Division's service provider.
